CosumnesGroundwater.org
for more information about
these events!

The Cosumnes Groundwater Authority (CGA) is sponsoring an Open House for all residents of the Cosumnes Basin in February, 2023.

Purpose:

Update landowners and the public in general about the efforts of CGA has undertaken to address the groundwater deficit in the basin.

Format:

Informal stations with information on a variety of topics of interests to those living in the basin. You are welcome to come at any time during the open house hours.

Topics to be addressed:

- Refresher on the Sustainable Groundwater Management Act - the law under which we operate
- The Cosumnes Groundwater Authority - What is the role of the organization in implementing SGMA, who is on the Board, etc.
- Current and Historic Groundwater Conditions
- Plans to implement Conservation Practices
- Plans to increase Groundwater Recharge, including floodwater for aquifer recharge
- Funding - current operational expenses and future needs

Take advantage of this informal opportunity to learn about groundwater management in the Cosumnes Basin. Get involved! We welcome your comments and suggestions.
