Public Comment: Comment will be received for items not on the agenda, but within the jurisdiction of the agency. The Board will hear comment but may not act on issues raised on non-agenda items.

Adjourn Meeting

Agenda Item #2

Cosumnes Groundwater Authority Board of Directors Meeting

Agenda Date: February 6th, 2023

Agenda Item #: 2

Agenda Item Subject: Long Term Funding

To: CGA Board of Directors

From: CGA Staff

Background

To fund the continued implementation of the Cosumnes Subbasin Groundwater Sustainability Plan (GSP) and the work of the Cosumnes Groundwater Authority (CGA), the CGA Board selected SCI Consulting to develop a long-term funding study.

Funding study development activities to date:

- August-September 2022: SCI met with CGA Staff to better understand previous funding studies and CGA structure/formation.
- September 2022: Introductory presentation at CGA Board meeting.
- October 2022: Initial workshop on the development of a fee study.
- December 2022: Presentation of updated scenarios/methodology at CGA Board meeting.
- January 2022: Presentation of updated scenarios/methodology at CGA Board meeting.

While important feedback was provided at January Board Meeting, CGA has not yet decided on an approach to a potential new fee structure. To ensure that SCI has appropriate time to create a first draft fee study, assist the CGA Board in performing appropriate outreach related to the study, and finalize the document on schedule, it is essential that the CGA Board provide adequate direction to SCI Consulting.

Staff Recommendation

Provide direction on the Draft Cosumnes Subbasin Funding Study methodology.

Agenda Item #3

Cosumnes Groundwater Authority Board of Directors Meeting

Agenda Date: February 6th, 2022

Agenda Item #: 3

Agenda Item Subject: Outreach and Engagement

To: CGA Board of Directors

From: CGA Staff

Background

Workshops:

• RESCHEDULED: Saturday, February 4th, 2023, 10am-12pm,

o NEW DATE: TBD, Wilton Community Center

• RESCHEDULED: Wednesday, January 25th, 2023

o NEW DATE: February 22, 2023, 5pm-7pm, Herald Fire Hall

- We have scheduled two public workshops/open house events to engage the community on a variety of groundwater sustainability topics. Interested community members and stakeholders will learn more about project planning efforts and the Cosumnes Groundwater Authority's first year as an organization. Partner organizations will also be present to share groundwater related information and resources.
- The Outreach and Engagement Team has been incredibly busy developing the materials for these workshops. These materials will be available for the Board's review ahead of the February 17th Board Meeting.

Farmer Survey:

- The main purpose for the survey is to assess the interest of farmers/ranchers in participating in efforts to reduce water use as well as parallel efforts to increase water supply by engaging in managed aquifer recharge. We would also like to understand the types of incentives farmers would consider in exchange for their participation.
- CGA Staff plan to work with the CGA Projects Committee and the Outreach & Engagement Team to consolidate the survey findings and to develop a memo to help identify approaches/options to reduce groundwater pumping/increase recharge in the Cosumnes Subbasin that are consistent with the interests of farmers/landowners.
- The survey is completely confidential, and you are not obliged to answer all the questions. Link: https://forms.gle/CTXJLDV3VBX56UMaA

Staff Recommendation

- Promote the Farmers Survey to help inform project development.
- Promote the public workshops.
- Consider GSA specific outreach activities (formal/informal workshops with constituents, letter to the editor, mailers, etc.) coordinated with CGA efforts.

Agenda Item #4

Cosumnes Groundwater Authority

Fee Study Structure

Goals, Options and Decisions: February 6, 2023

Board Direction Needed – Feb 2023

Budget Goals, Options and Decisions

- Budget #1: Current budget: \$477,427
- Budget #2: GSP Budget: \$1,128,000
- Budget #3: Middle Ground: \$805,000 (with assumed grant funding)

Fee Structure Goals, Options and Decisions

- <u>"Split Fee"</u> Flat parcel fee + per irrigated acre fee
- <u>"Tiered Approach"</u> Option for per irrigated acre fee
- Other Considerations Public water systems; fish farms

DWR Reporting and Fees

If the State were to take over the Subbasin, the following fee range would apply to all groundwater users:

| DWR Reporting and Fees (For Basins Managed by the State) | | | | | |
|--|----------------|--|--|--|--|
| Base Filing Fee | \$300 per well | (excludes de minimis) | | | |
| Unmanaged Area Rate | \$10 per AF | (excludes de minimis) | | | |
| Probationary Rate | \$40 per AF | (excludes de minimis) | | | |
| Interim Plan Rate | \$55 per AF | (excludes de minimis) | | | |
| De Minimis Fee | \$100 per well | | | | |
| Automatic late fee | 25% per month | Extractors that do not file reports by annual due date | | | |

- •Non-de minimis extractors would pay \$300 per well annually and between \$10 and \$55 per acre foot, and must meter wells and report to the State
- •De minimis extractors would pay \$100 per well annually
- •Completing the sustainability goals outlined in the Cosumnes GSP is the best way to avoid this scenario

Summary / Requested Direction

1. Preferable budget option

- Option 1: Current budget: \$477,427
- Option 2: Full GSP budget: \$1,128,000
- Option 3: Assumed grant funding: \$805,000

2. Preferable funding structure option:

- Per parcel flat rate (split fee)
 - \$45 per residential/commercial parcel, \$22.50 per agricultural parcel
- Flat rate per irrigated acre vs. tiered rate per irrigated acre

Other Considerations

- Public Water Systems
 - Could be charged on an acre foot basis according to rate
 - Use of 5-year rolling average would help to smooth rate
- •Fish Farms
 - Could also be charged on acre foot basis
 - Estimation of pond size and use
- Amador County Irrigated Acreage
 - Reduction in revenue due to surface water use may raise the irrigated acreage rate overall
