

Cosumnes Groundwater Authority
Outreach & Engagement Committee Meeting
Agenda

When: Friday, October 13, 2023 - 1:00pm – 2:00pm

Where: Zoom: <https://us02web.zoom.us/j/86542791561>
Meeting ID: 865 4279 1561

ACCESSIBILITY - If you have a disability and require a reasonable accommodation to fully participate in this event, please contact Austin Miller (CGA Secretary) before the day of the meeting via email [info@CosumnesGroundwater.org] or telephone [916-526-5447] to discuss your accessibility needs.

Committee Purpose:

The Outreach and Engagement (O&E) Committee for the Cosumnes Subbasin, as established by the CGA Board of Directors, is convened to provide a productive venue for developing and discussing the CGA’s outreach efforts and implementation of the Cosumnes Subbasin Outreach and Engagement Plan. The O&E Committee will serve an advisory role to the CGA Board of Directors, to inform the Board’s implementation of the Cosumnes Subbasin GSP.

Agenda Items

1. Call to Order and Introductions

2. Public Events Logistics
 - a. Nov 1 - Evening Workshop at Herald Fire Station
 - b. Nov 4 - Morning Workshop at Wilton Community Center
 - c. BBQ Luncheon

3. Sharing Outreach Materials
 - a. Workshop Social Media Flyer
 - b. Workshop Printable Flyer
 - c. CGA Fall Newsletter

4. Next Committee Meeting and Committee Report Out

Adjourn Meeting

**Cosumnes Groundwater Authority
O&E Committee Meeting**

Agenda Date: October 13, 2023

Agenda Item : #2 – November Public Events

To: O&E Committee

From: CGA Staff

Workshops

Staff are preparing to hold another round of workshops in November. In addition to inviting a variety of partner organizations (GSAs, other local agencies, etc.), CGA is presenting posters and speakers to relay information on a variety of topics to the public.

Dates

- Evening, Wednesday, November 1, 2023 from 5:30 – 7:30pm – Herald Fire Hall
- Morning, Saturday, November 4, 2023 from 10am - 12pm – Wilton Community Center

Breakout Sessions

Do we have time and/or volunteer capacity to hold breakout groups at the workshops? If so, what topics do we discuss? Do we have one breakout group per poster topic?

BBQ Luncheon

Date: ?

Where: Herald Fire Hall

The Luncheon will provide a space for local farmers/ranchers to come and meet staff and partners, ask questions, fill out the farmer's survey and learn more about CGA. As an incentive for attending, we will be providing food and soft drinks and hope to put together some raffle prizes for folks to win once they complete the farmer's survey.

Due to the workshops being so close together and Dennis Johnson unable to assist on November 9, staff is suggesting that we postpone/reschedule the BBQ.

Recommendations

- Provide staff with feedback and suggestions on these events.

**Cosumnes Groundwater Authority
O&E Committee Meeting**

Agenda Date: October 13, 2023

Agenda Item : #3 – Outreach Materials

To: O&E Committee

From: CGA Staff

Background

A Fall edition of the CGA Newsletter has been developed and is ready for distribution! The Newsletter highlights a brief overview of CGA, information about the Fall Workshops, Farmer's Survey details and link, and some conservation tips.

In addition to the Newsletter, a social media flier and a printable flier have been created for the Public Workshops.

O & E Team, please distribute these items to anyone who may be interested.

Recommendations

- Provide feedback to staff on sharing these outreach materials.

COSUMNES GROUNDWATER AUTHORITY**NEWS THIS QUARTER****WHO IS THE
COSUMNES
GROUNDWATER
AUTHORITY?**>>> **A BRIEF HISTORY OF CGA**

The Cosumnes Groundwater Authority was formed in November of 2021 by seven Groundwater Sustainability Agencies (GSAs):

- Amador County Groundwater Management Authority
- Clay Water District
- City of Galt
- Galt Irrigation District
- Omuchumne-Hartnell Water District
- County of Sacramento
- Sloughhouse Resource Conservation District

CGA strives to be a hub of information regarding Groundwater Sustainability within the Cosumnes Subbasin, while implementing the Cosumnes Subbasin Groundwater Sustainability Plan (GSP). The Cosumnes GSP was adopted in January of 2022 and it aims to assess groundwater quality, surface water depletion, land subsidence and other sustainability indicators while also proposing measures to correct any "undesirable results".

With the assistance of our technical consultants at EKI Environment & Water, Inc., CGA is continuing to assess the quality and quantity of groundwater in the subbasin and strategize to reverse any deficits and ensure long-term sustainability of the water available to businesses, residences, farms, ranches and ecosystems.

FALL EVENTS

UPCOMING PUBLIC WORKSHOPS

As part of our commitment to our community, CGA will be hosting two public workshops this Fall to provide updates on various topics including: local groundwater conditions, funding, current and upcoming projects, resources, and more. There will be also several partner organizations present to provide further resources to residents of the Cosumnes Subbasin.

The first Workshop will be held on **Wednesday, November 1 from 5:30 - 7:30pm at the Herald Fire Station (12746 Ivie Rd. Herald, CA 95638).**

The second Workshop will be held on **Saturday, November 4 from 10am - 12pm at the Wilton Community Center (9717 Colony Rd. Wilton, CA 95693).**

CGA Staff and partners will be available to answer questions, provide information on local conditions and projects, and give a brief presentation on vital concerns to the basin.

FARMER' SURVEY

CGA Staff has prepared a Survey whose main purpose is to assess the interest of farmers/ranchers in participating in efforts to reduce water use as well as parallel efforts to increase water supply by engaging in managed aquifer recharge. We would also like to understand the types of incentives farmers would consider in exchange for their participation. The information gained from the survey will be used to help identify approaches/options to reduce groundwater pumping in the Cosumnes Basin that are consistent with the interests of farmers/landowners.

If you are interested in participating in the Farmer's Survey, please feel free to fill out the survey using the QR code. The more responses we receive, the better we able to meet your needs.

TAKE THE SURVEY

CONSERVING WATER

➤➤➤ REDUCE USAGE AND KEEP WELLS UP TO DATE

In 2022, about 123,500 acre-feet of water was pumped out of the ground; that is the amount of water that would fill a 11-12 story building that covered a football field. Estimates made of water use by sector, as a percent of the total, are shown below in the pie chart.

While agricultural uses of water provide the greatest opportunity to conserve, everyone in the basin needs to pitch in to help reduce groundwater pumping.

info@CosumnesGroundwater.org

Phone:

(916) 526-5447

Mailing Address:

8970 Elk Grove Blvd.

Elk Grove, CA 95624

A few suggestions to get the ball rolling include:

- Reduce the size of your lawn if you have one, replace with lower water using bushes and groundcover
- Keep your pump operating efficiently. Perform an annual well inspections, including testing for the presence of bacteria or other harmful contaminants
- Stay informed - attend workshops and meetings of the Cosumnes Groundwater Authority or your local GSA to learn about the latest plans to save groundwater

UPCOMING CGA MEETINGS <<<

Location: Galt Police Department Community Room
455 Industrial Dr. Galt, CA 95632

Dates: Wednesday, October 4 from 9am - 12pm
Wednesday, November 1 from 9am - 12pm
Wednesday, December 6 from 9am - 12pm

CGA holds regular board meetings on a monthly basis. Members of the public are always welcome join in-person or via Zoom (link on website), ask questions and share comments. Listed above are the remaining meeting dates for the 2023 year.
